PICTORIAL STORY OF THE 106 MIRAGE M5 B OF THE BELGIAN AIR FORCE

MPA
MIRAGE 5 PILOTS ASSOCIATION

Photo © Johan Wolfs 2018

This third book published by the Mirage Pilots Association is a photo album that follows each one of the 106 Mirage M5 B's throughout their operational life in the Belgian Air Force. The book contains 106 superb profiles by Johan Wolfs and 500 large pictures, most previously unpublished. Sixty two of these pictures are in full page. Each aircraft chapter is accompanied by a little narrative retracing its operational life, maintenance periods and anecdotes. A lifetime table tracks each aircraft, monthly, from February 1970 until January 1994. Two of the chapters, which document the names and badges carried by each Mirage, will cause aircraft modelers to rejoice. Finally, one chapter recounts the return of the solo two seater on Belgian soil and casts an eye on TCAM BD 09, who carefully takes care of it in Sint-Truiden.
